

## 123 MINES ARE AT WORK AGAIN IN THE REGION

Five More Than Worked Wednesday Operating But Same as Tuesday.

## MINERS HOLD RALLY

Six Hundred Men Attend Grant Town Gathering Last Evening.

Little new has broken in the general suspension in the coal region recently. Indications point to 123 mines at work today, which is five more than on Wednesday but not quite the same number as on Tuesday.

Records show that four mines are working on the Monongah Division and one more on the Charleston Division, with the other divisions having the same number of mines at work.

On the Monongah Division, B. & O. there are twenty-five mines working. On the Charleston Division, B. & O. thirty-four mines are at work. Six plants are working today on the Connellsville Division, while twenty-three operations are active today on the Cumberland Division, B. & O. One lone mine continues to work on the Belington & Weaver branch of the Western Maryland Railway. Five mines are at work on the Morgantown & Wheeling Railway and as many mines are at work on the Monongah Division. Twenty-four mines are at work on the Morgantown & Kingwood.

Miners' Meetings. A series of activities is being kept up by the United Mine Workers of America, who are holding a number of meetings in various sections of the Fairmont region.

Tonight at 6 o'clock a miners' local meeting will be held at Down at 6 o'clock, which will be addressed by C. H. Batley, Fairmont, international representative, and Patrick Buckley, vice president of subdistrict 4.

Six hundred miners attended a meeting at Grant Town last evening. It was addressed by C. H. Batley and Patrick Buckley of Fairmont.

At Almina on Friday afternoon at 2 o'clock, a miners' meeting will be addressed by Messrs. Batley and Buckley.

A big rally of labor forces will be held at Guyon on Saturday throughout the day. The affair will start at 9:30 o'clock. Addresses will be delivered by W. H. Harris, president, and H. L. Franklin, secretary. West Virginia Federation of Labor, both of Charleston and others.

At Lowville this morning, Nick Aiello, president of subdistrict 4, addressed a miners' meeting.

Empty Ordered. West Virginia today ordered 369 empties, against 348 yesterday. Empties were distributed among the various divisions as follows: B. & O.—Monongah, 113; Charleston, 11; Connellsville, 20; Cumberland, 10; Western Maryland, 1; Belington & Weaver, 5; Morgantown & Wheeling, 13; Monongahela, 22; Morgantown & Kingwood, 75.

The increase in the empty order is especially heavy on the Monongah Division, B. & O., which showed an increase of twenty-one empties over the previous day, but a gain of forty-eight empties over May 1.

## APPRAISEMENT BILL FILED.

Harry Storey, O. E. Morris and W. E. Cooney, appraisers of the estate of Jacob M. Still, deceased, filed their report in the office of County Clerk Lee N. Satterfield for recording today. The reports show that Still's estate is valued at \$2,000.05. This amount, \$1,700 in United States Liberty bonds.

## DENIES IMPROPER RELATIONS.

POUGHKEEPSIE, N. Y., May 11.—Mrs. Anna U. Stillman, under cross-examination by lawyers for James A. Stillman, who is suing her for divorce, today stuck to her story that nothing improper had ever taken place in her experience with Fred Beauvais, Indian guide, alleged by the plaintiff to be the father of young Guy Stillman.

## LOST—Two bundles of clothes

on Morgantown Ave. Finder call Fairmont Cleaners and Dyers. \$22-R. Reward to finder.

## Normal Lecture Course.

Last number Friday Night May 12.

Beginning at 8:15 The greatest modern play Abraham Lincoln, written by Drinkwater will be read by Margaret Stahl at the Normal Auditorium. General Admission 50c.

## Will Speak Here Tonight

PROF. A. C. CALLEN.

As head of the department of mining engineering at West Virginia University the director of the mining extension school, Professor Callen will be one of the principal speakers at the banquet of the extension schools of Northern West Virginia here tonight.

Lambie, chief of the State Department of Mines, will also speak.

## Y. W. C. A. DRIVE GETS UNDER WAY

Canvass of City for Annual Memberships Started by Workers Today.

The Y. W. C. A. erects buildings, but it is not a building. It is not a school. It sends its workers into foreign lands, but it is not a missionary society. It runs cafeterias, but it is not a restaurant. It organizes girls into clubs, but it is not a club. It holds conferences, but it is not a conference. It runs camps, but it is not a camp. It takes a registry of homes that girls may find safe living quarters, but it is not an employment bureau. It prints books and leaflets, but it is not a publishing house. It studies methods of work among women, but it is not a university. It has numerous committees, but it is not a committee. It is an association of women, a world-wide sisterhood to bring more abundant life to women all over the world.

These are the outstanding arguments being used in the Y. W. C. A. membership drive which started this morning and continues throughout the week. Each ward and suburb of the city will be thoroughly canvassed.

Mrs. Arthur Lynch, who is chairman of the campaign, is being assisted by Miss Ruth Heinzelman, assistant chairman, and the following ward chairmen: First Ward, Mrs. Harry P. Robinson; Second Ward, first section—Mrs. H. L. Criss, second section—Mrs. J. E. Barry, third section—Mrs. J. E. Lawler; Third Ward, Mrs. Jack Bantz; Fourth Ward, Miss Mary Greer; Fifth Ward, business section—Miss Minnie Bell Poling, residential section—Miss Naomi Hefner; Sixth Ward, Mrs. Frank Lyon; Seventh Ward, Mrs. W. J. Wiegell; Eighth Ward, Mrs. H. C. McKay; Edgemont, Mrs. C. E. Mumford; Country Club Road, Mrs. L. J. Krom; Barrackville, Miss Wills Straight.

Owing to the circus, which is in the city today very little work on the campaign was done and it was impossible to get reports from the ward chairmen, but from all indications the drive is being met favorably. Mrs. Jack Bantz, chairman of the Third Ward, reported sixteen memberships at noon today.

## YOUNG DAUGHTER DIES

Hetty Della Delaroe, 6 months old daughter of Dominick Delaroe, died this morning at the home of her parents at Highlawn. The funeral will take place tomorrow afternoon and burial will be made in Oaklawn Cemetery.

## For Rent

7 ROOM furnished house. Sun porch; garage and garden. Call 1571-M. Mrs. L. M. Wetzel. 518 Benoni Ave.

## Large Truck

Going to Clarksburg Friday Open for Load Phone 517

## CIRCUS DAY HERE DRAWS BIG CROWD

Fair Weather Greets Sparks - Show—Elephants Right on Job Today.

An exceptional circus is in town today.

In the first place the circus did not bring any rain along. Local people have for many years linked up circus day with rain and mud. Today Old Sol smiled down sweetly, and at 2 o'clock there was no indication that he would hide himself during the afternoon or give way to a thunderstorm. Moreover, the circus arrived on time; paraded on time and the performances this afternoon started on time.

Big Crowd. A circus crowd in proportion to the bright day jammed the streets. Money flowed freely considering the pecuniary circumstances of many at this time. The baloon made the proverbial land of office business, and many kiddies are happy for this reason. Restaurant folk were prepared for the rush and ham sandwiches former a favorite diet.

The parade was adequate if not as pretentious as some local population gazed upon in years. The regulation clown band was on the top deck of one of the big red wagons, looking as grotesque as ever and rendering hideous discord much to the pleasure of a gaping public. Circus crowds are not, in the main, devoted followers of grand opera and classical music.

## B. & O. OFFICIALS TODAY INSPECTING M. & K. ROAD

B. Z. Holverstott, Grafton, superintendent of the Monongah Division, B. & O., was in Fairmont today.

C. W. Van Horn, Cumberland, Md., superintendent of the Cumberland Division, B. & O., spent last evening in Fairmont. He was registered at the Fairmont with his staff composed of F. K. Faherty, P. Peters, E. C. Drawbaugh, G. A. McGinn, C. C. Landis, J. R. Rice and G. R. Bramble, all of Cumberland, G. R. Edwards, of Keyser. The M. & K. was inspected today, Fairmont being an advantageous point to reach Morgantown and that road.

The B. & O. will tonight move the Sparks Brothers circus to Buckhannon.

## COAL STRIKE BLAMED

BELVIDERE, N. J., May 11.—The Empire Iron and Steel Co. of Oxford closed its plant today because of inability to get a supply of coke from the West Virginia fields. Officials of the company blamed the coal strike. Two hundred men were thrown out of work.

Arrangements have been begun, however, to re-open the company's iron mines at Oxford which have been idle for several months.

## TWO WOMEN WOUNDED

BELFAST, May 11.—A bomb was thrown in Glenview street last night wounding two women.

## BOTH CALLEN AND LAMBIE TO SPEAK AT MINE BANQUET

Successful Year of Mining Extension School Closes Here Tonight.

That the mining extension school work of West Virginia has been an unusual success this year despite the general depression in the coal fields is considered less than miraculous. The growth has been large despite all of the handicaps which the work faced.

The course was arranged by Prof. A. C. Callen, Morgantown, head of the department of coal mining engineering at West Virginia University. This was the first of a three year course.

One of the features of the work this year was the keen rivalry between the northern and southern parts of the state for attendance honors. Recent figures show that the Fairmont region is still leading. The class in Fairmont was leading the state for weekly attendance until a few weeks ago the strike cut heavily into the attendance records and the indications are that one of the towns in the southern part of the state may have the edge on Fairmont. The race is rather close, however.

Professor Callen has been generally regarded as being one of the best professors in coal mining engineering in the United States. R. M. Lambie, Charleston, head of the department of mines, has so stated in a number of addresses. Both Chief Lambie and Professor Callen will be present tonight at the banquet of the mining schools of Northern West Virginia and deliver addresses.

Professor Callen was born in Pen Argyl, Northampton County, Pa., in the heart of the slate region. He was a member of the Methodist minister who was born in Scranton and who went to work as a breaker boy when 10 years old, while his mother was the daughter of a retail coal dealer. Professor Callen received his early education in the public schools of Philadelphia and Reading. After graduating from the Reading High School he entered Lehigh University and graduated with the degree of B. S. (engineer of mines). He also received the degree of master of science in geology from Lehigh. While teaching at the University of Lehigh, he took further graduate work.

Coming to West Virginia University in November, 1917, as the successor to Prof. E. N. Zern, he found only a handful of mining students, practically all having gone to war. Only one man was in the extension staff. In spite of these conditions he went to work to build up and strengthen the department.

(Continued on Page Eight.)

## WITNESS ARRESTED AND LODGED IN JAIL

William Bugla, wanted by county officers in connection with the robbery of a store at Ida May, was arrested yesterday afternoon in the courthouse where he had come to testify as a witness before the Criminal Court grand jury. Bugla was locked in the county jail and the present grand jury will probably be asked to return an indictment against him on a charge of robbery.

Bugla was summoned to tell the grand jury what he knew about the robbery and what the other witnesses had said. He was charged with the charge learned that Bugla was going to appear as a witness against him, he made a statement connecting Bugla with the robbery. When Bugla appeared to be sworn to appear before the grand jury he was placed under arrest.

## INSTITUTE TO BE HELD AT NORMAL SCHOOL BUILDING

The annual Marion County Teachers' Institute will be held in the Fairmont Normal School Building this year, according to an announcement made today by I. A. Barnes, county superintendent of schools. The dates for the institute are September 4, 5, 6, 7 and 8.

Superintendent Barnes said that while the institute has not been arranged as yet he has decided to change the plan of the annual gathering of county teachers this year. Practical demonstrations and round table talks will predominate. A number of the long addresses given by the instructors in past years will be missing this year. All instructors engaged for the institute will have to be practical people who can explain their work in a clear and concise manner, according to Superintendent Barnes.

## TYPON UNION MAN HERE

William Clark Black, of Washington, Pa., was a visitor in Fairmont today. Mr. Black is a well-known printer and newspaper man. He is a member of the Typographical Union No. 456, and publicity agent of the Central Labor Union of Washington and Charters Valley Central Trades Assembly at Canonsburg, Pa. Black is well-known in International Typographical Union circles as holding the record of being the oldest correspondent to the Typographical Journal, published at Indianapolis.

## STANDARD SENDS UP PRICE OF GASOLINE

Price Boosted Cent a Gallon All Over Territory—Also Painters' Naptha.

NEW YORK, May 11.—The Standard Oil Co., of New York today advanced the price of gasoline 1 cent a gallon in all of its territory. It also announced a similar advance in the price of varnish makers and painters' naptha.

The new tank wagon price of gasoline is 26 cents a gallon, which is the same as that charged by the Standard Oil Co. of New Jersey, the Sinclair Consolidated Oil Corporation and other companies, which have announced advances during the past week.

The new tank wagon price of varnish makers and painters' naptha is 24 1-2 cents.

## Advances at Philadelphia.

PHILADELPHIA, May 11.—An increase in the price of gasoline for the Philadelphia district, making the cost to the consumer 25 cents a gallon, was announced today by the Atlantic Refining Co.

## GIVES INJUNCTION AGAINST UNIONS

Judge Baker Makes Ruling Against Union Lodges of Western Maryland.

WHEELING, May 11.—Judge William E. Baker this morning granted a temporary injunction directed against the union lodges of the Western Maryland Railway Co., which was plaintiff in an appeal for a restraining order. Judge Baker is now holding federal court in Wheeling, and has had the railroad's petition under advisement for several days. The decree applies to the following:

International Association of Machinists; Brotherhood of Boiler Makers; Iron Ship Builders and Helpers of America; Brotherhood of Blacksmiths; Drop Forgers and Helpers; Amalgamated Sheet Metal Workers of the International Association of Railroad Workers; Brotherhood of Railway Carmen of America; Brotherhood Maintenance of Way Employees and Railway Shop Laborers; Stationary Firemen and Amalgamated Brotherhood of Electrical Workers; Brotherhood of Railroad Carpenters; Brotherhood of Locomotive Firemen and Engineers; Brotherhood of Railroad Signalmen; Brotherhood of Railroad Telegraphers; Brotherhood of Railroad Trackmen; Brotherhood of Railroad Telegraphers; Brotherhood of Railroad Trackmen.

The order forbids defendants from interfering in any way with, or delaying or obstructing the full, free, safe, regular and orderly movement and passage of railway companies' trains, engines and cars, both passenger and freight, in interstate and intra-state commerce in West Virginia and in carrying the United States mails; also from entering upon or trespassing on, or upon the complainants' grounds, premises or other property. The men also are forbidden to assemble en-masse near the company's property.

One paragraph of the restraining order reads: "This order, however, shall not prohibit the defendants from attending at any place where they may lawfully be for the purpose of peacefully and lawfully receiving and communicating any information."

This is the first injunction against strikers issued by Judge Baker since he mounted the federal bench more than a year ago.

## AWAIT ACTION OF CHINESE GENERAL

TEINTSUN, China, May 11.—By the Associated Press—General Chang Tso-Lin defeated before Peking by General Wu Pei-Fu is preparing to resist his pursuer and has massed troops at Kuhl and Lanchow about sixty-five miles south of the Great Wall on the Mukden railway. Chang has announced he will not be responsible for foreign lives or property if Wu attacks.

Wu has ordered his troops not to proceed beyond Peking until it is clear whether Chang intends to fight or withdraw. Thirty-four American soldiers have left to reinforce the railway guards at Tangshan, seventy miles northeast of here and only five miles from Chang's outpost.

The situation in the main coal mines is serious, owing to the shortage of food and fear among the miners over the presence of hordes of Chang's Fengtien troops.

## PLAN TO STOP UPRISINGS

VERA CRUZ, May 11.—Measures for the suppression of the Vera Cruz are to be discussed at a conference between President Obregon and General Guadalupe Sanchez, chief of operations, in this state. The conference will be held in Mexico City. General Sanchez will outline to the president his plans for military operations against the rebels.

## MILK RATES CUT ONE-THIRD; PRICE NOW AT 10 CENTS

Robinson Ice Cream Co. Announces Fourth Reduction Since First of Year.

## BODY BLOW TO H. C. L.

Decrease Since January 1 Totals 8 Cents on Quart or Nearly 45 Per Cent.

Old Man H. C. L. was dealt another body blow today when the Robinson Ice Cream Co. of this city announced a 50 per cent reduction in milk prices, effective May 16, cutting rates to 10 cents a quart for pasteurized milk.

This is the fourth cut in milk rates by the Robinson company since the beginning of the present year. The first reduction from 18 to 17 cents a quart went into effect on January 1. On February 16 a cut to 16 cents a quart was announced and another cent was lopped off the prices on April 20.

Reduction 45 Per Cent. The 16 per cent reduction will be 33 1-3 per cent of present prices. The total reduction in milk rates since January 1 will be nearly 45 per cent.

Officials of the Robinson Ice Cream Co. when interviewed this afternoon attributed their ability to make this reduction to the great volume of their business. They stated that the demand for Robinson's pasteurized milk is growing constantly and that increased sales, led them to the cut in prices.

A still lower price on milk may be offered, the officials stated, if the business of the Robinson continues at its present rate of increase. They added that since milk is a basic food, reduction in its price should logically bring about decreases in the cost of other foods and products.

Milk prices in Fairmont are now on a level with those in large cities, and there is a hint of possibility that this city may be able to (Continued on Page Eight.)

## COMMITTEES OF ROTARIANS NAMED

Short Session Held Today and Little Business Done Owing to Circus.

Circus day made its impression on a regular weekly meeting of the Rotary Club at the "Y" this noon, and the few bits of business on hand were speedily dispatched so that Rotarians would be able to take their kiddies to every event on the afternoon circus program.

Miss Nell Prichard of the Business and Professional Women's Club, addressed the meeting in behalf of the working girls of the community, urging support of the convention of Business and Professional Women's Clubs which will be held in Fairmont, May 29 and 30. Miss Prichard especially asked that local employers give the girls working for them an opportunity to attend some of the meetings during the convention. And she also extended an invitation to the reception to be held on the evening of May 29 at the Presbyterian Church.

On a motion introduced by President Bob Miller, a donation of \$100 was voted to the Y. M. C. A. budget for the period of months intervening from now until the annual membership campaign in the fall.

President Miller also reported that the Fairmont Rotary Club is now in the thirty-third district of International Rotary as a result of re-districting which took place last month. That means that Fairmont and all West Virginia clubs, excepting in the cities of Keyser, Martinsburg and Bluefield, with the clubs in Western Pennsylvania now comprise the new thirty-third district.

Standing committees of the Rotary Club for the 1922-1923 term were announced as follows:

Education—King Cole, Baird Mitchell, Walter Barnes, Dan Maurer and Otis Wilson. Fellowship—Fred Helmick, Tom Conberg and Treve Nutter.

Boys' work—Brownie Brown, Si Ashcraft, Cup Carr, Joe Rosier and Dollie Dollison.

Entertainment—Ed Howard, Heck Martin, Bunny Keller, Sid Wright and O. A. Wood.

Music—Sally Satterfield, Hugh Smith, Hersch Satterfield, Doc Johnson and Speedy Norris.

Sergeant-at-arms—Mel Jacobs.

## Blizzard Children Take Sunshine Out of Trial of Miners

CHARLES TOWN, May 11.—Some of the sunshine disappeared from the defense camp of the miners' trials today, for Billy and Sister, chubby and playful, were no longer present. Billy and Sister are William, Jr., 5 and Marguerite 4, the children of William Blizzard, now on trial on a charge of treason and they returned last night to their home in St. Albans, after a week's visit to the county seat where their father's trial is being held.

Nearly every day they have spent part of the session with Mrs. Blizzard in the courtroom with never a peep of disturbance, though outside of court they were full of the play that comes from healthy outdoor life, and many of the courtroom spectators missed the two little tots for whom everybody has a friendly smile.

## SLIGHT INCREASE IN COAL LOADING

Gain of Nine Cars Over the Previously Established Peak Recorded.

Coal loading went a notch higher on Wednesday when the operating mines produced 307 cars of coal in Northern West Virginia. The previous peak for daily production was reached on Tuesday when 298 cars of coal were loaded. This really was only a nine car gain over the previous day.

The principal gain in tonnage was on the Monongah Division, B. & O., which crept up twenty cars over the previous day. Slight decreases were noted on the Charleston, Cumberland and Connellsville divisions of the B. & O. There has been no change on the Morgantown & Wheeling, which has been turning out five cars a day. There was a slight drop in tonnage on the Monongahela. The Morgantown & Kingwood mines gained slightly.

Tonnage loaded by the various divisions yesterday was as follows: Monongah, 70 cars; Charleston, 65 cars; Connellsville, 16 cars; Cumberland, 43 cars; Monongahela, 21 cars; Morgantown & Kingwood, 77 cars; Morgantown & Wheeling, 10 cars; Morgantown & Belington & Weaver, 5 cars.

East of Grafton. Coal moved east of Grafton on the B. & O. yesterday aggregated 132 cars. Ten trains drew 136 loads of freight east, while the western movement was 331 loads of which the coal loads numbered twenty-five. A total of 236 unassigned east bound trains were on the Monongah Division at midnight, and of that number 172 cars were coal.

Daily Shipments. Daily shipments off the Monongah Division, B. & O., yesterday consisted of 57 cars to the east and 16 cars to the west. The movement to the east has been on the increase during the past few days, running approximately 20 cars stronger. Ordinarily this movement is about 10 cars. The increase in coal production being experienced.

Coke Loading. Coke loading during the past few days has not been as heavy as earlier in the week. Yesterday twenty-one cars of coke were produced on the Monongah Division, B. & O. Of that total nineteen cars of coke were shipped east, but none was shipped to the west.

Daily Railroad Fuel. Coal secured by the railroads off the Monongah Division, B. & O., yesterday aggregated twelve cars. All of the coke region today is being augmented by a few men daily. Shipments grew from day to day.

Shipments of coal into the Pittsburgh district from West Virginia continued to add to the supplies used by mills and furnaces. At the by-product plant of the Carnegie Steel Co. in Clairton, reserves amount to one huge coal pile of approximately 85,000 tons, and 125 loaded cars with 300 tons of additional reserve in barges on the Monongahela River.

Activities of the United Mine Workers in the Fayette County region continue with the organization of active miners who are on strike and those who are still at work.

GRANT BOARD TO MEET. The Grant District board of education will meet at 7 o'clock Friday evening in the office of I. A. Barnes, county superintendent of schools, in the courthouses.

Routine business of the board will be transacted, with a special thing to take up will be a board of directors in the schools of the district is invited to attend the meeting.

THREATEN TO STRIKE. CHICAGO, May 11.—Resolutions declaring they would accept no wage reductions under threat of a nation-wide strike were adopted yesterday by the delegates representing 150,000 members of the Amalgamated Clothing Workers of America.

## MINERS ORDERED TO SHOOT STATE POLICE ON SIGHT

State Counsel Experiences Great Difficulty With Witnesses.

## HAND GRENADES USED

Families Moved When Approach of Officers From Over Line Is Feared.

CHARLES TOWN, May 11.—(By the Associated Press.)—State counsel's difficulties with the witnesses in the treason trial of William Blizzard came to a head today during examination of Fred Danglerfield, first man on the stand at the morning session of Circuit Court.

"We were surprised by what this witness testified," said A. M. Belcher, one of the attorneys associated with the prosecution. He asked the witnesses if he had talked last night with Frank Keney of district No. 17, or any of the other men making up the march against Logan. When the witness said "no" and did say he had talked with prosecution attorneys, Mr. Belcher began to read from his digest of testimony.

Danglerfield, who lived in Sharples at the time of the march, testified that he saw armed men in that vicinity. Cross-examined as to whether he heard of a clash between State Police and miners on Beech Creek, which the defense claims precipitated the march, he said he saw no armed men in Sharples until after that affair.

Wore Red Handkerchiefs. Fred Danglerfield, first on the witness stand, was an electrician at Sharples and his testimony covered what he observed among the armed men he saw there. When he said the men wore red handkerchiefs, T. C. Townsend of (Continued on Page Eight.)

## SNIPERS FIRE ON MINING PROPERTY

Deputy Sheriffs in Fayette County Attempt to Locate Offenders.

UNIONTOWN, Pa., May 11.—A force of deputy sheriffs and constables was sent to Coal Springs, in the Fayette County region today, to locate persons who have been firing from the hills into mining property. The officers were fired upon as they started into the hills. They returned the fire but were unable to say whether anyone was wounded. The deputies reported to Sheriff I. L. Shaw at Uniontown that they needed more men. They said they intended to go into the hills and locate the snipers, who have been firing on Coal Springs for four days. Three mines in the coke region resumed operations this morning. They were the Hays plant at Masontown; Macket at Fairchance and Gilmore at Smithfield. These mines had been affected by the strike.

Production Gaining. The coke industry has lost \$7,760,000 since the strike began on April 1, according to the weekly review of the Connellsville Courier made public today. Only twenty-three of the sixty-two plants are now working, while the loss of active ovens has been reduced from 11,964 to 4,820.

"There is a gradual gain in the number of coal mines in operation," said the Courier, "and the working forces of coking plants are being augmented by a few men daily. Shipments grew from day to day."

Shipments of coal into the Pittsburgh district from West Virginia continued to add to the supplies used by mills and furnaces. At the by-product plant of the Carnegie Steel Co. in Clairton, reserves amount to one huge coal pile of approximately 85,000 tons, and 125 loaded cars with 300 tons of additional reserve in barges on the Monongahela River.

Activities of the United Mine Workers in the Fayette County region continue with the organization of active miners who are on strike and those who are still at work.

GRANT BOARD TO MEET. The Grant District board of education will meet at 7 o'clock Friday evening in the office of I. A. Barnes, county superintendent of schools, in the courthouses.

Routine business of the board will be transacted, with a special thing to take up will be a board of directors in the schools of the district is invited to attend the meeting.
